OBJECTIVE / PROFILE

Motivated **Computer Science Undergraduate & AI-Powered Builder** at CVR College of Engineering. Experienced in leveraging modern Generative AI models, prompt engineering, and low-code/web deployment platforms to rapidly build, design, and host interactive digital projects. Passionate about exploring emerging tech workflows, cybersecurity awareness, and collegiate innovation.

EDUCATION

CVR College of Engineering — B.Tech in Computer Science and Engineering 2025 – 2029

Hyderabad, Telangana, India

Focus Areas: Web Technologies, AI Tools & Prompt Engineering, Operating Systems, Networking Concepts.

Sri Chaitanya Junior College — Intermediate (Higher Secondary, MPC) 2023 – 2025

Hyderabad, Telangana, India

Sri Chaitanya Techno School — Secondary School Certificate (10th) Graduated 2023

Telangana, India

TOOLS & TECHNICAL EXPERTISE

Generative AI & LLM Tools: ChatGPT, Google Gemini, Claude, GitHub Copilot, Perplexity AI, Midjourney, v0.dev, RunwayML, Prompt Engineering

Web & Cloud Platforms: Vercel, Supabase, WordPress, Webflow, Git, GitHub, VS Code, HTML5, CSS3, Postman

Design & Productivity: Figma, Canva, Microsoft Excel, Google Workspace, Linux / Terminal Basics

Domains of Focus: AI-Assisted Prototyping, Prompt Engineering, Web Deployment, Cybersecurity Awareness, Network Basics (VLANs, Firewalls)

FEATURED PROJECTS & BUILDS

AI PPT Reviewer Agent FastAPI, OpenAI API, Prompt Engineering

- Built an AI-assisted presentation analyzer that reviews slide decks and provides instant recommendations on structure, layout balance, and readability.
- Utilized prompt-engineered evaluation chains and backend API routing to generate structured design feedback.

Canarytoken Security Trap & Password Analyzer Python Scripts, Security Concepts, Cryptography

- Configured digital decoy tokens that trigger instant alert notifications when unauthorized access is detected on files or networks.
- Constructed a password entropy analyzer script evaluating password strength against pattern vulnerabilities.

Full-Stack Restaurant Ordering System Node.js, Express, MongoDB, React, Tailwind CSS

- Assembled a functional restaurant application featuring client ordering menus, cart state management, and backend database storage.

Real-Time Anonymous Chat Application

JavaScript, Node.js, WebSockets

- Deployed an ephemeral multi-room messaging platform supporting instant live text broadcasting across temporary sessions.

Personal Developer Portfolio (vishwak.tech)

HTML5, CSS3, GSAP, GitHub API, Vercel

- Designed and launched a personal portfolio on Vercel with responsive layouts, glassmorphic UI components, and dynamic GitHub contribution data.

CERTIFICATIONS & TRAINING

- **Palo Alto Networks:** Fundamentals of Cybersecurity & Network Defense
- **NVIDIA Deep Learning Institute (DLI):** Getting Started with AI on Jetson Nano / AI Fundamentals
- **Google Cloud:** Cloud Computing Foundations
- **MongoDB University:** Document Database Fundamentals
- **Postman:** API Fundamentals Student Expert

COLLEGIATE ACTIVITIES

- Active participant in campus hackathons and collegiate coding challenges at CVR College of Engineering.
- Passionate explorer of emerging AI tools, prompt workflows, and digital design trends.
